Prices Yet Remain Steady in the Mid-Season.

CEREALS EXTREMELY DULL

Cotton Statistically Strong-Meaning of Failure Figures.

New York, Jan. 12.-Bradstreet's tomorrow will say: Quietness as to demand, but marked steadiness as to prices, is still the leading feature in trade lines a condition, it might be remarked, not uncommon at this stage of the year, which is a sort of middle ground between stocktaking and inventory time, and the actual opening of the spring season.

Aggressive strength in prices is confined to a few staples, such as pork products, which are firmly held on a rather tardy recognition of the fact that supplies, both of live hogs and of meats are far from burdensome. Tallow, cottonseed oil and similar products are sympathetically strong. Raw and rened sugars have both, been advanced this week, not apparently because of the war between the refiners being settled, but really because supplies of raws are himited. Quite a flurry in coffee occurred as a result of reports of an outbreak of the plague at Rio.

The bearish pressure on cotron has not been relaxed this week, but she disproportion between the decline in spots and options would seem to point to the bear campaigh having been less profitable than hoped for. Statistically, the position of cotton is strong, but the African war has checked Bellish cotton manufacturing and discouraged foreign buying. Domestic cotton manufacturing is apparently highly prosperous, southern mills being well employed, while low water in the streams affects New England production. What few lines of next season's wooken goods have been reported are at advances ranging from 25 to 35 per cent and much interest attaches to the reception that will be given these increased quotations. Pending the settle-ment of this, raw wool is dull but firm and speculation is naturally light.

Iron and steel are extremely quiet but igns of weakings are not numerous, the shading in pig iron being condued to a few grades and markets. Production in December was below expectations, being affected by holiday shut-downs, but there is little doubt that the aggregate production for 1899 will not be much below in tog one none, a production surpliesing all previous records, and having a counterpart in the unexampled autput of coke also reported for last year. Stocks of ore on Lake Erie are reported little in excess of a year ago, notwithstanding the greatest production on record. The quiet in pig fron extends practically to all the nished branches of the trade, and hardware is also quiet, but none the less firm, as evidenced by the reports of further advances by western jobbers. Tir is speculatively higher this week, but

copper has sagged off. The limited demand for limber is naturally light, but the length of supplies is notable, as evidenced by the fact that white pine stocks are 22 per cent smaller than a year ago. The mild weather and lack of snow in the northwest this year it is thought likely may affect the cut this winter. The large yellow pine order for 10,000,000 feet for the Pan-American exposition at Buffalo, sously printed 10,000,000 last week. Is

still unplaced Cereals have been almost hopelessly dull this week on the "hand to mouth demand. Stocks are larger and crop re ports are in the main favorable, but short sellers are nervous in view of possible foreign complications. Price changes, not panied by a certified check for \$10 as a only in wheat but in corn and other grains, are the smallest noted for many

weeks past Hides are dull at the eat, but considerable buying is reported west and quotaions are fairly firm. Unseasonably fine weather has affected sales of foot cover. ing, and this is reflected in a rather quieter market for boots and shoes for immediate consumption. Leather, however, remains quiet and firm notwithstanding. The open season has undoubtedly made it easier for producers and ing the demand for domestic sizes.

Wheat, including flour, shipments for the week aggregate 4.215,936 bushels, ngainst 2,509,682 bushels last week, 5,647.-081 bushels in the corresponding week of 1899; 5,294,517 bushels in 1898; 2,948,154 bushole in 1897 and 2 202 124 bushels in 1894. Since July 1 this season the exports of all PAIN, CURES WIND COLIC and is wheat aggregate 110,742.995 pushels. against 134,035,048 bushels last year and 137,842,910 bushels in 1897-98, « Corn exports for the week aggregate 3.314,576 bushels, against 4,019,604 bushels last week, 3.297,072 bushels in this week a year MISSOURI AND KANSAS LUMBER ago, 480,750 bushels in 1898; 3.757.281 bushds in 1997, and 0,336,017 businels in 1996. aggregate 128.970.575 bushels, against 80. 605,000 husbels during the same period

DUN'S REVIEW OF TRADE. New York, Jan. 12.-R. G. Dun & Co.'s weekly review of trade will say in tomor-row's issue: The business of the new year begins well, thoughthere is still much of the usual hesitation. In branches where last year's business was extraodinary and wherein prices have risen greatly some pause is natural, though nothing indicates decrease of consuming disposition or purchasing power, but there is nuing rise in wages to promote increase. Monetary conditions have grown easier with the return of \$4,000,000 from the interior during the week and further deposits by the treasury and more liquidation in some speculative stocks has also helped. Banks report an increase in their per cent of commercial loans, and rates were generally more easy after tht de-

cline announced by European banks. The furnaces in blast January 1 were producing weekly 294,186 tons of pig iron, against 296,969 December 1, but as several had stopped only for the holidays and others had started, the output now is probably larger than at either date. It exceeds consumption at least, as the Iron Age shows an increase of 9,256 tons in unsold stocks, but the manufacture apparently consumed during the year, 13.831,639 tons, less small net exports in December. The increase since 1892 is about 4.225,000 tons, or 46.5 per cent. Prices change scarcely any, nor is new business significant. The minor metals are strong in tone, but as yet without much change in

Textile manufactures are more fully employed than for a long time though scarcity of water had troubled some cotton mills. Trading is embarrassed by uncertainty about prices. Wool is not act. ive, nor are speculators or manufacturers in haste to buy at current prices, though the good market shows some advances for the next season, with excellent trade thus far. The effect upon the season's sales cannot yet be judged. Cotton goods hae been quiet and no longer advance in prices, as the market for the material is certain in tone.

The boot and shoe manufacture has a similar difficulty, for while shipments are heavier than ever before at this season, in two weeks 179,376 cases against 148,174 last year and 171.751 cases in 1898, as the rapid distribution to consumers causes most urgent calls for goods previously ordered, yet dealers are slow to order more, in fear that prices will not hold. Manufacturers insist that still further advances are needed to cover the cost of leather. The Chicago market for hides is weak, with a lower average than at any time since November 1. Cotton moves so slowly that belief in a

very short crop is constantly strengthened, but foreign demands are much reduced also. On January 5 only 5,000,031 bales had come into sight, against 8,001,916 last year, but exports had decreased 1,725,000 bales and European stocks were far below last year's. For the present foreigners are using up old stocks instead of buying more, and the price hesitates. Wheat has been slow to move also, Atlantic exports in two weeks having been only 4,376,514 bushels, flour included, against 9,452,106 last year, and Pacific 1,312,903, against 1,524,051 last year. The prices close a fraction higher. Corn receipts have also fallen below last year's. though the exports in two weeks have been 7,231,988 bushels, against 7,199,913 last year and prices have advanced about half

Failures for the week have been 274 in the United States, against 218 last year, and 25 in Canada, against 24 last year. Size doesn't indicate quality. Beware of

TO CARRY ON MOODY'S WORK Meeting of Interested New York to Form Plans.

New York, Jan. 11.-For the purpose of levising the best means of carrying on the work of the late Dwight L. Moody, numbers of the committees from the Bible House, Chicago; the Mount Hermon Institute for Young Men and the Seminary for Young Women at Northfield, Mass., met here today. Among those present were Will R. Moody, eldest son of the evangelist; F. A. Fitt, his son-in-law; Rev. R. Torrey, superintendent of the Chicago institute: H. M. Moore, superintendent of the Institute at Mount Hermon, East Northfield; J. J. Estey, Brat. fleboro, Vt.; C. A. Hookins, Boston: Fleming H. Revell, Chicago; Ira D. Sankey, Brooklyn; D. W. McWilliams, Brooklyn: J. D. Cutter, Northfield, Mass.: George Keith, Campello, Mass.; C. H. Balley, Winthrope, Maine: Charles B

The meeting was in secret, and after it was concluded formal announcement was made that the work of Mr. Moedy would be continued under the form of the Moody memorial endowment. The following advisory committee was selected at the meeting: William E. Dodge, New York; James Talebit, Morris K. Anson Phelos Stokes, Jr. D. W. McWilliama, D. Willis James, John S. Kepnedy, Ira D. Sankey, all of New York: Keith, Cyrus McCormick and Victor F. Lawson, all of Chicago; John H. Converse and John Wanamaker, of Philadelphia; C. A. Hopkins, Boston, and Franis White, Baltimore

It was decided to issue an appeal to

the public to subscribe the \$3,000,000 rejuired to meet the expenses of the instiution. D. W. McWilliams was selected as treasurer, and the following were appointed a committee to invest the money James Talcott and Morris K. Jessup, Lord. A. Denny, of London will be asked to be emorial endowment in Great Britain. Will R. Moody appounced that the conand that a large number of speakers had Among these speakers were H. W. Webb-Peples of St. Paul's Cathedral, London; Rev. John H. Jewett of Birmingham,

Rev. Sheldon Says, His Story Could be Acted

AND DO IMMENSE GOOD

Otherwise, Violence Would be Done the Book Itself.

Topeka, Kan., Jan. 12-Rev. C. M. Sheldon says he has not been consulted about the dramatization of his book, "In His Steps," which Francis Nellson is undertaking in England. "The story could be acted by Christian men and women of the purest type, as missionary work," he said, "and I believe it will be good. But if played by people not interested it would be contrary to the book itself. I haev refused to allow it to be dramatized rise above its surface. To build a merin this country, for fear it might get into the hands of people who would use it for making money, instead of making a lesson of the story. Several playwrights have asked for permission to dramatize the story, but I have so far refused to allow them to place it on the stage. it could be played by Christian men and women there would be no objection. If the theaters were owned and controlled by Christian men and women, the same as the churches, I can see how it would do a great deal of good."

LENZ'S DEATH IS NOT AVENGED Renewed Pressure Will be Brought to

Bear on the Porte. Washington, Jan. 12.-It is said at the state department that the attempt to secure some sort of reparation for the killing of Lenz, the bicyclist, in Turkey, is beinb steadily prosecuted. About two years ago the Turkish government was addressed on this subject and promised to punish the murderers. It appears, however, that the attempt to do this was perfunctory, and the guilty parties, even when arrested, were allowed to escape and are now beyond the reach of the Turkish government. The attention of Mr. Strauss, our minister to Turkey, has agin been attracted to the subject and he it to the Porte.

LOST THE TASTE

For Ordinary Coffee.

"It is strange how people will try to invent some cause for their feeling bad. rather than to charge the trouble to some habit they may have that they have good reason to believe is the real cause. For instance, all the time that we were using coffee on our table I was subject to occa sional terrible headaches, and my husband was half sick with nervous trouble "We felt satisfied that coffee was the cause, but were afraid we wouldn't like Postum Cereal Coffee, and therefore tried in every way to think that something in the food, or some other reason, was the real cause of our troubles. After reading several articles in regard to the evil effects of coffee drinking, and the merits of Postum Food Coffee, I become convinced of the truth of the stal ments, and called my husband's attention to

"He was skeptical on the subject, but s it was subscribed: William E. Dodge. to please me, said we would give Postum a trial, so he procured a package and I Overton of Glargow, Scotland, and James | made it, but the milk we were using was of the kind that produced little cream come the committee to take charge of the and that did not give us as good a bever age as we found afterwards could be socured with cream. However, in spite of because would be held at Norinfield the the drawback, we grew to like the Posoming and succeeding summers as usual, turn Proof Coffee, and both of us found ourselves greatly benefited by the change. dready promised to give addresses. My head ceased to trouble me entirely, and my husband was practically made

"We were out of the Postum for a time, and having coffee in the house and feeling so much better, we concluded to try the coffee again, but in a few days my egard to the placing of W. R. Moody at headaches came back, so that we became satisfied where the real trouble existed. We used Postum for quite a long time and still having some coffee in the bouse tried coffee again. Imaging our surpris foing; he was just a worker like the in discovering that we no longer cared for the taste of the ordinary coffee, so connected with the three institutions, and the next morning we had a rare treat, in The a cup of piplur hot, delirious Postum.

"Coffee is no longer kept in our house have entire charge of the work, and the Our children are very fond of the new work would go on the same as in the kind of 'toffee,' as they call it, and we The Northfield schools had each give them as much as they want to drink, without fearing to injure their mo. About \$125,000 is annually required to health. I find that it enables me to furnish baby with a more abundant supply on the principles pursued for the past of milk than I could otherwise do. Pos P. GOVERNOR SHAW'S INAUGURAL Contains a Queer Pronouncement on the Subject of Trusts.

Des Moines, Iowa, Jan 11.—For the second time, Governor Shaw was innaug urated as chief executive o fihe state this afternoon. The oath of office was pronounced by Chief ustice Justice Granger of the supreme court, in the presence 5,000 people. The ceremony consisted of a parade from the state house, headed by a troop of the National Guard, and exer cises at the Auditorium, which concluded with an address by Lieutenant Governor Milliman. In his finaugural Governor Shaw said in part: "Even in this most remarkable century, ever-famous for its growth and wealth and material prosper. ity, there is one industry that has failed to increase with the years. I refer to our merchant marine. At the beginning of the nineteenth century we were carrying 90 per cent of our foreign commerce in American ships. We now carry one-fifth, or 30 per cent, Shall this continue? We are in possession of the Pacific. Shall we build the ships requisite to its enjoyment? It is as truly ours, if we have the co of our convictions, as are the islands that chant marine will require both time and the same measure of encouragement as the nations of Europe accord those with which we must compete. "The experience o fihe war and navy

department of the government duing the last two years justifies the hope that the best shippards in the world will find steady home employment and that vessels built to fly the American colors will be accessible for all future ends. accessible for all future demands.

"The United States is conceded to be

the great agricultural country of the "A young man came into our store yes- world and our manufacturers find few erday suffering from a severe attack of rivais. There is no valid reason why we may not also become the great comme and general merchant, Dickey's Moun- cial and financial centers. But in order tain, Pa, "He had tried various home to do this we must have as good money as our European competitors. And what Chamberlain's Colic, Cholera and Diar- characterizes good money? I answer, cerrhoea Remedy I gave him a dose and it tain and ready exchangeability. A due bill will remain at par so long as its maker maintains its exchangeability for legal funds at par on demand; and it will go to discount whenever exchange ability fails. Sliver is as good as gold only so long as it can be exchanged at par for gold. The principal objection made by those who contend against the free coinage of sliver is based on the fact that exchangeability is in no manner provided for; and it is believed that left to themselves, gold and silver coin will flucu ate in value. The government should, I think, maintain the exchangeability of all its issues. Whoever has gold and prefers silver should have the absolute right to demand it in exchange. Whoever has silver and prefers gold should have the or treasury notes should have guaranteed to him the absolute right of exchange for any kind of money that will better suit his retirement, he had intended making will make renewed representations upon his convenience. The first step in the direction of gold hoarding is an apprehension that in some way or by some means it will command a premium. There cer tainly can be no better way to safeguard the treasury than to guarantee exchangeability. I can see no increased danger by expressly providing for the exchange of silver for gold and of gold for silver, than nheres in the proposition for the redemption of greenbacks and treasury notes in gives immediate results. Gus Saur, 524 | gold. The proposition is logically correct. It is reasonable and right. Such a provision would be notice to the commercial world that every dollar of United States money is the equivalent of, and that it can be exchanged for, 25.8 grains of gold, and would make a draft on New York as

acceptable at the clearing house of the

"I think those who contended at the

world as one on London.

trust convention in Chicago last fall that trusts and monopolies as synonymous terms were correct, have yet to find the first man who has a word to say in extenuation or defense of monopolies. Gentleman of the general assembly, let it be your duty to crush every one within your reach, and the people of this state will call you blessed, and the people of every other state will take notice of your wisdom and will fol low the course you shall have marked our If al lthe states of the union could be induced to unite upon some single policy I would have no fears of successfully combatting monopolies in this country. They might be built up abroad, but they could then be effectually reached by means of tariff. Aggragations or combinations o capital do not necessarily constitute the evil complained of. The may be, and are, dangerous, for they may, and frequently do accomplish great harm, but discern it, consists in monopoly. If trusts are to exist anywhere I would prerail factories built and operating in Iowa some way to bring uniform legislation so that cupital shall find no more welcome elsewhere than here, it will be my pleasure to co-operate with you, or, if you can devise some statute which will relieve ou people from the domination of monopolies, either at home or abroad. I shall be glad to add my signature when the bill shall be presented for approval. Any legislation that will bring widesproad disaster and rulo, will result in the dissolution of trusts and combines, and will scatter all aggregation of capital. I think it is genrather than by state legislatures.

ENERAL WILSON PROTESTS Against Newspaper tleports Alleging Practical Insubordination.

Wall ligton, Jan. II.-The following letter was rouse public as the war department today "Marantas, Cuba, Doc. 3, 1999.
